## Description

The Granberg UNILIFT HA10 Comfort is an innovative electric lifting system which raises kitchen appliances out of cabinets, enabling easier access for both seated and standing users. Fully electric, it is controlled by the included Bluetooth control button, allowing the appliance shelf to move smoothly upwards and forwards to a comfortable working height. Installed in a 500-800 mm wide base cabinet, tall cabinet or kitchen niche, the clever mechanism stores appliances neatly out of sight when not in use, helping to free up valuable worktop space and create a cleaner, more organised kitchen.

**Key benefits:**

- Height adjustable appliance lifting system for cabinets
- Electric operation
- Raises appliances forwards and upwards from the cabinet
- Choice of 500, 600 and 800 mm width for cabinets
- Bluetooth control button included for flexible positioning
- Suitable for air fryers, stand mixers, espresso machines and similar kitchen appliances
- Stable work surface for appliances up to 25 kg
- Can be stopped at the preferred working height
- Helps reduce lifting, bending and reaching
- Suitable for seated users, wheelchair users and standing users
- Can be installed in base cabinets, tall cabinets or niches
- Suitable for new kitchens and retrofit installation
